The **Water Smart Connect project**, funded by Horizon Europe, in collaboration with the **Water4All Partnership** and the **International Cleantech Network**, is hosting a workshop in order to explore key project opportunities in European regions when it comes to the Water Smart Society. In this session the partner will share concrete cross-regional priority topics based on seven selected regions, Pohjois-Savo (Finland), Sjælland (Denmark), Friesland (Netherlands), Centre- Val de Loire (France), Occitanie (France), Aragon (Spain), and Catalonia (Spain) with the intention of establishing avenues for cross border cooperation and actions with the stakeholders present at the session.

Topics

- Water reuse and recycling / Circular economy and resource recovery
- Water quality and pollutants management/ prevention
- Climate change adaptation
- Digitalization and Smart Water Management
- Focus on food systems
- Cross-sectoral collaboration / Policy and governance

Agenda

- Intro to Water Smart Connect & Water4All
- Presentation of Cross-regional priority topics
- Group activity on to develop concrete project ideas
- Summary and Next Steps
